

# Pause

Ari Hest

I've been trying to tell you  
Everything you need to hear  
But my words seem to hollow out  
Before they reach your ears  
Though I know you too have things to say  
That much is clear  
Oh must you interfere?

Now I know there's not an evil bone inside you  
I know that that's true  
But there are things I've said many times now that aren't getting through  
If we can't listen to one another what good am I to you  
I know one thing we can do

How about we try and take a pause  
A little time away to help the cause  
How about we try and take a pause here

I wanna give you everything  
Everything you say you need  
But to talk over each other we know quite well  
Where that leads  
Let's change the way this goes  
Let's plant a seed  
It might grow like a weed

How about we try and take a pause  
A little time away to help the cause  
How about we try and take a pause here  
How about we let the fire die  
Leave our emotions there to lie  
How about we let the fire die now

How about we try and take a pause  
A little time away to help the cause  
How about we try and take a pause here  
How about we let the fire die  
Leave our emotions there to lie, my love  
How about we let the fire die now
