

# Who Am I

Ari Hest

Am I the one who gets you high  
Am I the one who makes you die  
Am I the light that guides you home  
Or would you rather be alone

Who am I  
Who am I  
Who am I to you?

I've had you crying out for more  
Been made to feel like I'm a chore  
Can I still bring about a smile  
Maybe I'm going out of style

Who am I  
Who am I  
Who am I to you

These days are blending all together  
The indecision knows no time  
I may be here and there but I'm feeling nowhere

There's something still to our embrace  
Though there is too an empty space  
I know you see me hesitate  
So tell me now before it's too late

Who am I  
Who am I  
Who am I to you  
Who am I  
Who am I  
Who am I to you
