

# Vacancy

Ari Lennox

Baby welcome to my house cold out  
Hot cocoa on the couch, lay you down  
Etta James surround with a sound  
Maybe you can help out, look around  
Got some walls that need painting, rearranging  
See them legs on the table, kinda shaky  
Got some pipes that be leaking, do you see it?  
You can stay here for the weekend, no leaving

Ooh, baby  
I want you to fill this vacancy, come through  
Ooh, baby  
I want you to move in this space with me tonight  
Ooh, baby  
I want you to fill this vacancy, come through  
Ooh, baby  
I want you to move in this space with me tonight  
I do, tonight

Motion in the bathtub, fill it up  
Got some water on the rug, made it flood  
Maybe you can use your tongue like a plug  
Look in my eyes while I chug, know it's snug  
I don't care, no  
'Cause you here with me  
Pull my hair, take it there  
It's where I wanna be

Ooh, baby  
I want you to fill this vacancy, come through  
Ooh, baby  
I want you to move in this space with me tonight  
Ooh, baby  
I want you to fill this vacancy, come through  
Ooh, baby  
I want you to move in this space with me tonight  
I do, tonight

Tulips in a vase full of water  
Baby, when you make it grow for me  
Made a spare key just for you  
Baby, I want you to open me  
I want you moving in with me  
I need you moving in with me  
My place ain't far  
What's mine is yours  
Our love
