

# No Lockdowns Anymore

Ariana Grande

Oh, oh, oh, woke up today  
Feeling ok, wow this is new  
Oh, oh, oh, got the vaccine  
And it's been two weeks  
There's life in the streets  
Hot people at brunch  
And I've got a hunch  
Mimosas are gonna be bottomless  
Oh, oh, oh, turning off Zoom  
After fifteen long months stuck on mute

No lockdowns anymore  
We can finally walk out the door  
The sunlight is a fantasy  
It still doesn't feel real to me  
No lockdowns anymore  
Will they still take my temp at the door?  
Shout out to our favorite M.D  
Anthony Fauci

Oh, oh, oh, look at my hair  
I'm no longer scared to have it cut  
Oh, oh, oh, back in the gym where I start to sweat  
Um, maybe not yet  
Say, "Hi" on the street  
Air kiss on the cheek  
It's been so long since I've put on my shoes  
So, oh, oh, let's hit the club  
Or get drunk and get matching tattoos

No lockdowns anymore  
Time to go back to work indoors  
No more sweatpants or Zooming in  
While I really watch Bridgerton  
No lockdowns anymore  
Traffic is so much worse than before  
The world's such a new place to me  
What's an NFT? I have no idea. What?

So, oh, oh, been a long wait  
I'm so ready for life to re-start  
(No lockdowns, no lockdowns)  
(Ready for life to re-start)  
No lockdowns anymore  
Gonna live the next year outdoors  
We could see a movie at three  
Making plans is like sex to me  
It's what we've been waiting for  
To embrace all that life has in store  
It's time to make new memories  
Once you've got the vaccine (Once you've got the vaccine)  
Hug your family (It's time to hug your family)  
Feeling so relieved (Oh yeah, we're feeling so relieved)  
No lockdowns, we're free
