

## Cold Street Lights

Arid

Baby down in the dirt  
Baby down where you are  
Everything's everything and I'm still waiting for a lucky draw

Baby down in the dirt  
Baby down on your knees  
Everything's everything and it's getting so hard to breathe

Waiting for love out on the road tonight and I'm  
Waiting for love under the cold street lights  
Under the cold street lights

Baby down in the dirt  
Baby down on my knees  
Everything's everything and it's getting so hard to see

Baby down in the dirt  
Down where I stand  
Feel time slipping away, falling from my hands

Waiting for love out on the road tonight and I'm  
Waiting for love under the cold street lights  
Under the cold street lights

Waiting for love to settle down  
Waiting for love under the cold street lights  
Under the cold street lights

Baby down in the dirt where you are  
Baby down looking up at the stars  
Time again our lives rearranging  
Time again like the wind we'll be changing  
You don't even know who you are  
You don't even know anymore  
And my love

There is a time for new beginnings  
There is a time for letting go  
There is a time for every soldier  
There is a time for every soul  
There is a time for new intentions  
There is a time for everyone  
There is a time to tight to mention  
There is a time you'll reach the sun

Waiting for love out on the road tonight and I'm  
Waiting for love under the cold street lights  
Under the cold street lights
