

Custom Gold

Arid

Our days of custom gold they will never return
Find your wings of old sink and burn
I'm going to rip my soul of its wings tonight
Can you see us crawling all the world is falling down

Our days of custom gold they will never return
Find your wings of old see them burn
I'm going to rip my soul of its wings tonight
Can you hear us calling all the world is falling

I'm in love tonight x2

Our days of custom gold they will never return
Find your wings of old see them burn
I'm going to rip my soul of its wings tonight
Can you hear us calling all the world is falling down

Our days of custom gold, why do you live?
Now your story's told, will you forgive?
There's just one goal in our hearts and I
I just want to say dear ain't nothing in your way here

I'm in love tonight x2

Baby we shine like the stars tonight
We're on our way down
We shine like the stars tonight
And I'll be with you
Yeah

I'm in love tonight x4
