Ariel Pink

Flashback
See the days are done
Flashback
My love for you is gone
Because of you everybody has withdrawn
My love for you is as addictive as this song

Everyone is looking
On the streets, always searching
All they need is some action
Get a little satisfaction
Gorilla had just begun
For me and for everyone

See, I was getting no place
With all the ladies I faced
They all turned out bad
All the love that I had

Flashback
See the days are done
Flashback
My love for you is gone
Because of you everybody has withdrawn
My love for you is as addictive as this song

The ladies never started
All the men, broken hearted
[?] kinds of passion
[?] to my own detraction
Gorilla had just begun
For me and for everyone

See, I was getting no place
With all the ladies I faced
They all turned out bad
All the love that I had
