

I'm Nothing Without You (Bells And Whistles)

Ariel Pink

I love you
Baby, I love you
I love you with all of my heart
Life without you, don't know what I would do
'Cause I'm nothing without you
Oh baby
And I don't think I'd make it without you

I need you
Darling, I need you
I need you right from the start
When we kissed I thought I was dreaming
'Cause without you I can't sleep
I miss you so bad and I'm afraid I won't make it
Without you
I don't think I'd wanna live without you
'Cause I'm nothing without you

I had you
Baby, I had you
I had you in the palm of my hand
I loved you
And thought we were forever
But I was wrong
Oh, so wrong
About you
What goes on [?]
Without you, dear

I'm crazy, so very crazy
I'm lazy
There's no doubt
Sometimes I wish I never met you
'Cause I was just fine all alone
And now I'm all alone, and I'm useless
Oh baby
I don't think I'd make it without you
Oh baby
I'd still be dead without you and that's 'cause I'd be alive
Just without you, and I don't know what I would do

Hello, it's Andrew
I miss you
I'm sorry about today. What can I say?
Where to start
I'm sorry
I was hurt, no excuses, no excuses
I've learned a lot from this experience, forgive me
I was not thinking, and while drinking I killed someone
And while sleeping I was walking
When you picked me up and
While crying I was thinking all, I was gonna end it all
Until you pushed me out of that car
Sorry I missed you
This is Andrew
I'm sorry, I just had to call
I just had to call you

Hello, this is Andrew
Ben? Are you there?
Patrick, are you there?
Is anybody here?
Oh no!
They all went without me
