Aries

Woah-woah

Step to the darkness, like it's my goddess, we've had no problems

She's honest, she like it raw, she does her thing

But being modest's just not an option I can't relate

Don't beg my pardon, so enough of bargain, got price to pay

On the side I'm a little biased, she can't complain

Come and try us, you ain't even trying, she can't complain (woah-woah)

Red light's out I'm seein', no I'm probably color blind

Fuck with your shit, bitch I'd rather die (Rather-mm)

Something more (yeah)

Another place, another time

Less than friends, yeah, less than friends

Less than friends (far gone)

Woah

Another place, another time

Got my inside no more needin' this

Crawlin' through my insides, came right out and dipped

She still want her wrist iced, let no shit slide

Feel the grit I'm talkin' late night, never goodnight, wish you would

And I misunderstood, now get up out my woods

Careful where you look at me dedicate a hook

Used to medicate, now empty my wallet and don't fill that pocket

A little less than friends, little less than friends

Less than friends, woah

Another place, another time

Far gone

Rather die in the mornin' time

Red light's out I'm seein', no I'm probably color blind

Wave goodbye, yeah, do I die?

Hit the lights, yeah, why only I know

Something more (yeah)

Another place, another time

Less than friends, little less than friends

Less than friends (far gone)

Woah

Another place, another time
