

CAROUSEL

Aries

That is all...

You know? It's a routine with some of these, man

Little girl, bring fire from her world

I'm trying, I'm lost, only murmur

Stay in for the summer

Stay in for the summer

And while 6 feet under

And I kept that number

Call her, call her

Keep falling, falling, like

Carousel

Known to raise hell like I'm Tyrion

In chainmail, gimme head, tails

See the jaw drop

Face melt, like a basehead, Libra scale

Balance both sides

And she do it well

So well, so well, yeah

Rainman, ducking from the sun

Doing OK then?

All these feelings bottled inside

Like a house dog

Bounty on the outlaw

Should get out the house more

Playing off the foul ball

You could stick around

Little girl, bring fire from her world

I'm trying, I'm lost, only murmurs

Find time, yeah, find time

Unsure, I'm lying

Stay in for the summer

Little girl, bring fire from her world

I'm trying, I'm lost, only murmurs

Find time, find time

If she's unsure

Find time, stay in for the summer

Quiet, lonely, nobody told me

Drifting aside, yeah, running away

Soon as you got those new Nikes

Soon as you got those new Nikes

Busy cutting the checks

I'm used to cutting the ties, ok

Pull up your pants, ok

Remember them rolling eyes?

Now they're all fans, ok

Hanging from grapevines

She want the juice now

She want it all, right

Get it from you now

Little girl

Drifting aside

Drifting aside

Call her, call her
Keep falling, falling, like

Carousel
On the same ride
We're on the same
We're on the same ride
We're on the same ride
We're on the same

Little girl, bring fire from her world
I'm trying, I'm lost, only murmurs
Find time, find time
If she's unsure, find time
Stay in for the summer

Yeah
Yeah
Carousel
