

DIE 4 NOTHING

Aries

Wonder why they think I'm showing face
I had no intent of overstaying
Pick it up, this ain't a holiday
Echoin' like every word you're saying (She said)

Never let 'em distract you
Pick your head up, show some backbone, love
After living out a life of suffering
Do you really wanna die for nothing? (Nothing)
I do what I got to
No second-guessing this time, show up (Show up)
After living out a life of suffering (Suffering)
Do you really wanna die for nothing? (Nothing, ooh)
Do you really wanna die for nothing? (Ooh)

Cold discussion, ain't that some shit?
Rectify me for my wild assumptions
She tell me "It don't matter where you laying
But here's a few things, that might help you to understand,"
Yeah, she said, "I ain't playin',"
I live to serve the plot, then fuck around and dance
I'm shooting from the hip-hop, pop out like a soda can
Listen baby, here's the plan

Never let 'em distract you
Pick your head up, show some backbone, love
After living out a life of suffering
Do you really wanna die for nothing?
I do what I got to (I do what I got to)
No second-guessing this time, show up (Show up)
After living out a life of suffering (Suffering)
Do you really wanna die for nothing?

Starting to fall (I can't hear you)
Fall in so easily
I can't hear you at all (I can't hear you, glass jaw motherfuck
er)
Hear what you say to me ([?] glass jaw)
I can't, I swear to God
The whole crowd is playing me
How can I be immortalized?
Do you really wanna die for nothing?

(I'm with you tonight)
(I'm with you)
