

# DITTO

Aries

I made a way for u  
Don't shut me up, ya

Dust off my window sill  
There's sunshine on my tail  
Got granny a whole new grill  
She said, "You're still little, kid"

One night, just a couple rounds in  
Butterscotch looking like my brown skin  
Bodies I don't know about; a thousand  
Probably shoulda put u on allowance

A gateway for you outside of me  
Shouldn't bat an eye  
I can barely move, assume it's my defeat

Go time, batter up  
I can help  
Best not let me get ahead of myself  
Would you roll, ma? Tell me  
You don't wanna get shelved  
Why so silly? Hit the lotto and tell  
Why still with me? I'm bothered

Hold my two hands from the covers  
Show you a life I fancy, no other

Same time as always my love

I laid away for you  
All the photos do me nothing  
At least the attitude keep me company  
Although, that shit is super ugly

I made a break for you  
Assume I'd do what they don't tell you  
Bat an eye, yeah  
Counting my steps—

I can't stand where the last one sank  
This one, that one, you simulate baby  
Comatose, operation A  
Right before my eyes

(Wya?) hiding  
Crying til somebody loves you  
Fucks you, and bugs you

Go time, batter up  
I can help  
Best not let me get ahead of myself  
Would you roll, ma? Tell me  
You don't wanna get shelved  
Why so silly? Hit the lotto and tell  
Why still with me? I'm bothered

Hold my two hands from the covers  
Show you a life I fancy, no other

Same time as always my love
