

Drugs

Aries

Gimme my smokes!
Smoking's bad for you y'know
No it's not, try it
Whoa, little bro, that smoke'll make you choke
It doesn't make me

You keep the name out your mouth
I'll do the same
Shit don't stick to me like it used to
I've been around the plate
With the older guys
You steady hold your gas in weight
Fuck around with the wrong things
Then yes you've got a brain
But don't seem to use it
I thought I'd help with conscious music
But you flip to the dark side
That side is more abusive
That side make you more reclusive
Bro this shit ain't an illusion
And I've come to conclusion
If I don't move than I'll be losing

You take drugs (take drugs)
To sake your mind, (again again)
You take wine (take wine)
To forget about time
You take drugs (take drugs)
To sake your mind (every time)
You take wine (take wine)
To forget about time (forgot)
You take

Back to the topic
I don't keep track never stop it
I've come to reinvent the time that had slipped through the clock
Can't sit back and just watch
Got purpose to produce now who are you?
Shot through the glass but no, the glass never been bulletproof
I'm stumbling over you
Took my chance and survived
Even in shallowest waters
You still tempted to dive
Tempted to ride the same current
Got me spitting like a turret
And I'm posted on my ship
You in my waters, wish you weren't okay?
Not like I let this happen
I pick my poison, rapid
You had a choice but now your body don't listen to all this senseless yapping
g
Bitch you can't break the habit
Bitch you an idiot to save a seat for me
I'm done man, I can't stand it
What you want, pop a xanny?
What you want, some nose candy?
Puffing on green, sipping on lean

Amy you've got to have it
A different type of dabbing
Different pages same book
I just wished I never cared to look
And now I'm hooked like drugs

Drugs (take drugs)
To sake your mind, (again again)
You take wine (take wine)
To forget about time
You take drugs (take drugs)
To sake your mind (every time)
You take wine (take wine)
To forget about time (forgot)
(Yeah) You take

I see that greed from the other side
And once upon a time, I set the bar
So low I could not fit under mine
I peeled off his number 9
Lit the mic and redesigned the mind
State that's fucking up my life (life, life)

You take drugs
Wine
Drugs
Wine
