

## FOOL'S GOLD

Aries

(Vice)

Yeah

I was made in gold, fall asleep inside my resume  
Feelin' low, pop the ceiling, please don't hesitate  
Peelin' off, chasin' racks, keep me in shape  
I don't wan' wrap my mind around her every day, any night  
Any way, I'ma ride for you, love, dollar signs  
Pockets swole like a swine, many fold, many tried  
Many go, I survived episodes I shouldn't have  
Sold me some love, drugs, I could make an album out of  
Feet up, targetin' me like a problem  
Be your sovereign, what you want? I got it  
And in my hindsight, all of this becomin' silly  
If I made a milli', then my mommy made a milli'

Clearly on my next step  
Took me for a host, why? You can be my guest  
Hard to catch sunshine waitin' by my desk, yeah  
You want fun times, I need nothing less

I don't wanna wait too long, do I have to?  
A lot of racin' thoughts in my head  
Messed around and played your part, send you back to him  
One shot like I never miss (Let's go, let's go)

How long can we dance for? I got many plans  
In the eye of the storm, why you huggin' the fence?  
I wish I'd have known 'cause my feet grippin' the sand  
Used to run with the crown, tell me  
Have you seen a man down?  
Picture this, I'm headed to the land now, hold my breath  
Every second made me stand out  
Differences between you and the rest

Clearly on my next step  
Took me for a host, why? You can be my guest  
Hard to catch sunshine waitin' by my desk, yeah  
You want a fun time (Fun time, fun time)

I don't wanna wait too long, do I have to?  
Racin' thoughts in my head  
Messed around and played your part (Played your part), send you  
back to him  
One shot like I never miss (One shot like I never miss)
