Three nines  
I wish, I wish, I wish  
Ready

Turning tides like I'm in the sea  
Waveride, I make boatloads my pay high, you can just stay tied  
'Cuz the past year's been fast asleep  
Oh you want weekly salary  
But the stress alone burn my calories, stress alone burn my calories  
Vibe out on the side, yeah  
Crime all in my life, yeah  
Gemini two-faced, woah  
Couldn't read all the signs, yeah  
Still off on the same smoke  
Hotboxin' the range rover  
She say what I say ain't right, lemme explain it  
I just use it, numb the pain at times, it leave me brainless  
New girls in the Calvin Klein, look who got famous  
That same pussy poppin' on my iPhone  
And I turn around 'cuz all my bygones do mean goodbye  
Wish, I wish, I wish  
You sound like my old car, that shit won't ever start again (Shut-up)  
Make sure you walk on water 'fore you try and burn that bridge, sink that ship (woah-woah)  
Inside, yeah, Inside, yeah

I'm talkin fake nights get my pay right  
Reminiscin' what she say right, if the pay right (Grant your wishes)  
I'm talkin fake nice, get my pay right  
Inside, yeah, inside, yeah

Hole in my heart like cryo  
Came up with the link in my bio  
Pretending I never existed  
Then hit me like "it's been a while"  
Wish I had nowhere to be  
I wish I could think better titles  
Oh, you want ice on your teeth?  
I wish I could summon a smile  
Lost game with a price tag and we copped it  
Cash cloudin' my optics from the pocket  
One spawned and I'd watch it when you cross me, yeah I caught it  
Bow down to your prophet  
I am just part of the profit (yeah)  
Do me until I'm in coffin  
And the feelin' inside, dreamy world

I'm talkin fake nice, get my pay right  
Reminiscin' what she say right, if the pay right (Grant your wishes)  
I'm talkin fake nice, get my pay right  
Inside, yeah, inside, yeah

She made it, easy I fall  
Wish, I wish, I wish  
She made it. easy I fall  
Inside, yeah, inside, yeah  
I wish I didn't feel so bad

And if you ever end up seeing what I do  
I wish you'd never ever catch me, you should know that  
It's not much more to understand about you  
Maybe one day you'll get me  
She made it, easy I fall
