

MISS U THE WORST

Aries

Fur coat, little mouth
Freckled nose, show up unannounced
Floodwaters, hurricane waters
You been outside, you were made for it
Climbing up any path in reach
No, you tend to get the wrong idea
Snakes in the grass, I see
Tell me who do you trust

To pick you up on time
You know that I gotta be
At your side
Hate me when it's time to leave
But I'ma miss you the worst
(Pick it up, pick it up, go)
I couldn't bring you to the night show
But I look forward to the drive home
Just to see you with her

Yeah, how you coming in?
For a mere bite, or the sun again
Or to kill time, what you feel like?
Which one is it? Which one is it?
Forever was wrong
But I still hold on to the thought
No, I can't let you go, go
Pick you up

To pick you up on time
You know that I gotta be
At your side
Hate me when it's time to leave
But I'ma miss you the worst
(Pick it up, pick it up, go)
I couldn't bring you to the night show
But I look forward to the drive home
Just to see you with her

Fur coat, little mouth
Freckled nose, show up unannounced
Floodwaters, hurricane waters
You been outside, you were made for it
Climbing up any path in reach
No, you tend to get the wrong idea
Snakes in the grass, I see
(Just to see you with her)
(Just to see you with her)
