

ONE PUNCH

Aries

Right here, duck down, stay low, uh
My job, one punch, K.O.
Tell her, "Ain't no way I'm running now"

Hard to catch me fumbling
Jet-black heart, beneath that sundress
Sold-out tour, pit-stop in London Town

Ain't no way I'm running now
Ain't no way I'm running

Yeah

Right here, duck down, stay low, uh
My job, one punch, K.O.
Tell her, "Ain't no way I'm running now"
Ain't no way I'm running

I don't wanna ever leave
Never ride in a limousine
Before your whole cup so empty
You took a shot for the magazines, yeah
Another shot, John Kennedy

Why so upset?
I ain't never let 'em touch you
Goddess in the flesh
LBS, yelling "What's new?"
Shawty, don't wanna party
Meet me at the bottom
Buckle in, break my hand

Hanging too tight (Wouldn't ever leave)
Like a fruit fly (Give me something sweet)
You can try and hide it (Girl, what you working on?)
(I need you stay right-)

Right here, duck down, stay low, uh
My job, one punch, K.O.
Tell her, "Ain't no way I'm running now"
Ain't no way I'm running

Right here, duck down, stay low, uh
My job, one punch, K.O.
Tell her, "Ain't no way I'm running now"
Ain't no way I'm running

I don't wanna ever leave
Never ride in a limousine
Before the whole bottle's empty
You playing possum, envy, yes
When the lights out, let's begin
Two hundred miles, so empty, baby
Fuck me right like besties, yeah
Do we even need a reason, baby?

Right here, duck down, stay low, uh

My job, one punch, K.O.
Tell her, "Ain't no way I'm running now"
Ain't no way I'm running now
