

SLEEPWALKER

Aries

Sweet darling, do you keep calling for me
When you feel that pressure? (Pressure)
Like it's now or never
Sleepwalking to you, dreams ain't felt the same
It ain't been the same

Uh, took a trip, we got lost in the area
If you think this is crossing a barrier
Won't you back-back-back the fuck up?
She a fiend, I can see through the walls and
In the blink of an eye, had my guard going down
Even breaching my mind like it's not yours now
Back-back-back the fuck up (Back the fuck up)

(That's what the doctor ordered)
Better off the less I know
Only way that I can keep my peace
Better off the less I know
Though I gotta ask you 'fore I leave

Sweet darling, do you keep calling for me (Keep calling)
When you feel that pressure? (Feel that pressure)
Like it's now or never
Sleepwalking to you, dreams ain't felt the same
It ain't feel the same

'Cause we took a trip, I was lost and found
She had my heart in a lace nightgown, I'm all in
I confess to my darling, hope she's near when I'm calling her
Does she like that sound? The end's not far
We could break new ground with caution
I'm a step from the deep end
Lay down my head and she said
"Sleep tight, talk that talk and maybe you'll end up mine"
"Walk that walk but never cross that thin line"

Back the fuck up, one lie's gonna use our luck up
I'm better off the less I know
Fumbling a missing piece
Better off the less I know
Than the more I'm in reality

Sweet darling, do you keep calling for me (Keep calling)
When you feel that pressure? (Feel that pressure)
Like it's now or never
Sleepwalking to you, dreams ain't felt the same

Sweet darling, do you keep calling for me?
You said my jaw could be made of glass
Until I stopped counting every crack, I'm
Sleepwalking to you, dreams may felt the same
Beat around every bush, still draws me in, just touch and go
Sweet darling (Just touch and go), do you keep calling for me?
Back the fuck up, one lie's gonna use our luck up
Sleepwalking to you, dreams ain't felt the same
Back the fuck up, one lie's gonna use our luck up
