

Star Power

Aries

Bustin' out the gate like I brought a new weapon
My blood boils while you fuckers need the epinefrine
I sever any bond or any kinda-like connection
This ain't the time to joke, I'm yelling eight-nine-seven
Get it? This is the only time to settle it
Try to dumb it down, goin' Fred from Frederick
Steppin' in my corner better best be 'head of it
I get 'em in a flash, come along my brethren
Keep coolin', you freak loser
This mic is a bitch, watch how I speak to her
I'ma [?] out of this hole, the opposite of [?]
Here's my virtues, I've been out of control
Livin' life how I see it, I'm a rap star
Got a few fans but they always got my back car
If you with it bump my fists
Everybody else can suck a dick

Hey, hey, hey, hey, hey, hey
(Too dope, fuck 'em)
Hey, hey, hey, hey, hey, hey
(Too dope, fuck 'em)

Stupid with the wordplay
Using star power like in Mario Kart to get in first place
And I ain't even had my first date
For now, it's probably better that way, do it for her sake
I've been conflicted, so much hate
That I can take all of this angst and literally hit you with it
Until the day that this hip-hop came
I was about to clip the edge, felt like my fuckin' brain was mixing
Do this for myself, fuck everybody else
Keep laughing, I'll bring the heat and drag you back into hell
Cut it out, I've done it now
My [?] are so damn big it's too heavy to back him out, listen
I'm just a man with a mission
I plan to get back at everybody as my wish
If you with it bump my fists
Everybody else can suck a dick

Hey, hey, hey, hey, hey, hey
(Too dope, fuck 'em)
Hey, hey, hey, hey, hey, hey
(Too dope, fuck 'em)
Hey, hey, hey, hey, hey, hey
(Too dope, fuck 'em)
Hey, hey, hey, hey, hey, hey
(Too dope, fuck 'em)
