

Upside Down

Aries

Never cause harm to anyone

Electricity stabbing, hanging upside down
Couldn't fucking breathe, I was hanging upside down
Electricity stabbing, hanging upside down
Couldn't fucking breathe, I was hanging upside down
Electricity stabbing, hanging upside down
Couldn't fucking breathe, couldn't-couldn't fucking breathe, I was

Caught in the undertow, whole time I know my escape
You know we gotta go, right beneath these crashing waves
I just put that on my life, never thought I could be strong
Used to be someone I like, now your right
Yeah I'm wrong never I am artist, let's close that coffin
The stroke flowing like these waters, drown with those problems
Talking an easy talk, you still need fix
Yeah you broke as shit, shine city in the shade
Come clean if you dirty my wrist
If you dirty my wrist, still reap what I sow
Flock to the moon, touchdown on the
Motherfucka' that's God in my reflection
You never get anything that's sold separate from the next
You don't wanna be the one, Deadman under the sun
Takin' back what you say, as soon as I get it done
Soon as I get it done

Electricity stabbing, hanging upside down
Couldn't fucking breathe, I was hanging upside down
Electricity stabbing, hanging upside down
Couldn't fucking breathe, couldn't-couldn't fucking breathe

Stay conscious, been high above this can't hang with novice
Focus you're losing hope, hold on let's prosper
They bought it way back in August, I was their fall
Only want us to be great, can we get that on a plate
Ego aside, okay thanks
Followers being misguided, you people aren't the brightest
We all want us a Mariah, touching a body the Midas
Gatherin' energy, no dependence call em, get em while they're disrepectin' m
e
Now that your dead to me
I used to be on your side
Think you're the man well you're not
Who this, I painted those blueprints
Bite flows off of my waves, crumble sooner or later
Emphasis on the necessities, wishin' good luck to my enemy
Nothing can put us aside, 'less you gone pay for the time (Yeah)

Never cause harm to anyone

Electricity stabbing, hanging upside down
Couldn't fucking breathe, couldn't-couldn't fucking breathe
