Arin Ray

She don't need to know  
I probably shouldn't tell her  
Damn I done fucked up  
I've been feeling all the pressure  
All of these girls see what's going on  
It's just the energy is how it goes  
But I'm tryin' to slow down  
And I hope you know now  
Baby when it go down  
Girl I'm trying to slow down, slow down

I can come and see you if you want me, get it when you want  
Everybody talkin' let em have it we gone' be on top  
For real, aye, for real, aye, for real, aye, for real, aye  
I can see it in written in the stars we were feeling made  
Poppin' champagne like we won a race  
For real, aye, for real, aye, for real, aye

I know you want more  
But I'm hoping love  
Hoping to change it up  
Be on my side  
I'll stand by you babe  
Just be my guide  
I'll follow you babe

I can come and see you if you want me, get it when you want  
Everybody talkin' let em have it we gone' be on top  
For real, aye, for real, aye, for real, aye, for real, aye  
I can see it in written in the stars we were feeling made  
Poppin' champagne like we won a race  
For real, aye, for real, aye, for real, aye

Oh no baby, oh no now you really tripping  
Go on get your feelings switching  
Take a shot of that got you feeling different  
We done been here before, we been here before  
She lose her mind when that weed is involved  
We been here before, we been here before  
She lose her mind when that weed is involved  
Yeah, I know, baby I know  
Show you the things that I know  
Take you to places I go  
Just say the word and we can roll  
Wait a minute got a safe with the money  
And I throw the bank in it  
Bitch wait, had to freeze it up, I was skating in it  
And the commas so big you can put a tank in it  
Take cash to the telly tell her keep it safe with it, yea  
I don't pretend to play with em  
I don't really so the whole point in hating niggas  
I find it hard to sit back and relate with ya  
When you been through all the shit what I'm feeling is way different  
Had to switch the whole game because of you lame niggas  
Got my gold chain because of you lame niggas  
Everything thing fine just give me some down time  
Some good to break down some bitches to hang with us
