Always

Arin Ray

Good to see you, love, I know it's been a while
It's obvious you're doin' good, look at you now
Heard you broke up with your man, what's that a bad?
We should catch a drink or two, how long you around? Yeah

So tell me what you need to
Get back to you and me, you
Got me rememberin'
Just how f*ckin' good it used to be (Ayy)
Need you in my life
So I gotta tell you right

(I will always want you)
I will always want you (So long)
Oh, I will always want you (You can feel it, girl)
Yes, I will always want you
Yes, I'll always want...

Girl, I broke your heart with conditions
I did it all in hopes that you'd listen (To me)
Now he don't need to be in your life
And truth is, girl, neither do I (Oh)

So tell me what you need to

Get back to you and me, you
Got me rememberin'
Just how f*ckin' good it used to be (Ayy)
Need you in my life
So I gotta tell you right

(I will always want you)
I will always want you (So long)
Oh, I will always want you (You can feel it, girl)
Yes, I will always want you
Yes, I'll always want...

I will always
For so long...
I will always, oh

Ooh, what you do to me, babe
Way you talk to me, babe (Ooh, yeah, yeah, yeah)
The things you say to me, babe
Yeah, the way you talk to me, babe (Ooh, yeah, yeah, yeah)
(I will always want you)
The way you talk to me, babe
(I'll always want you)
I said I need you
I said I need you
(I will always want you)
Always want you, baby
(I will always)
Yeah
