

Change

Arin Ray

You've got me all in my feelings, oh
Girl, I know that you're tired from running through my mind, ayy
You stole my heart and I mean it
'Cause you can't take what you need and not give back to me

(Got me thinking)
Should I stay? Should I go?
Should I leave? I don't know, goddamn

'Cause thinking of you (Thinking of you)
It's all I do (It's all I do)
And honestly, I might go insane
'Cause when we break up, uh
Can't wait to make up
Girl, you know
Some things will never change

Nah-nah, uh, oh (No, no, no, no)
Keep goin' in circles
Uh, nah-nah-nah, oh
Goin' in circles (Ayy, uh)

You can't keep comin' and goin', uh
In and out of my life
Please make up your f*ckin' mind
I give you time and you kill it
It's very personal to me
That you give it everything, yeah

Should I stay? Should I go?
Should I leave? I don't know, goddamn

Shit, thinking of you (Thinking of you)
It's all I do (It's all I do)
And honestly, I might go insane
'Cause when we break up (Break up)
Can't wait to make up (Uh)

'Cause girl, you know
Some things will never change

Should I leave? Should I stay? Should I go?
Ball in your court, lay it up, let me know (Mhm)
I've been around for years, back when everything was slow (Slow)
You a superstar now, I always told you you would blow
I see you, I wanna please you, I wanna breathe you (Uh)
If you ever lost, I wanna be the one that leads you (Oh)
Pick you up at night, take a drive, shit, I'll feed you
Somethin' 'bout me, I can guarantee I could complete you
I'm a woman that's gon' show when they ask you who you ridin' with
Who get her own around her neck, I'm who you shining with
Pushing for this love, 'cause what you are is what you grow
Look at God, look at love, look at how it overflow (Overflow, yeah)

Shit, thinking of you (Thinking of you)
It's all I do (It's all I do)
And honestly, I might go insane

'Cause when we break up, uh (When we break up)
Can't wait to make up (Make up)
Girl, you know
Some things will never change

I keep going through circles, circles, all around you
I keep going through circles, circles, all around you
