

# Cold

Arin Ray

Sorry, I got caught up in your light  
Girl, you know that I've been waiting for some time  
So much more to say but I couldn't find the lines  
Say, do you believe in us?  
Do you believe in signs?

It must be cold outside  
The way you holding me tight  
Holding on for dear life  
It must be cold outside  
The way you holding me tonight  
Holding on for dear life

Oh, it must be cold

Love so sweet  
We're in harmony  
You played it well  
See you've got all I need  
Just show yourself, show yourself  
Show yourself, baby  
Do it right, do it well  
For you health, baby  
See, you might last for me  
Be the last for me  
Let me tell ya  
I can see it baby

Oh, it must be cold

It must be cold outside  
The way you holding me tight  
Holding on for dear life  
It must be cold outside  
The way you holding me tonight  
Holding on for dear life

Oh, it must be cold

Oh, it must be cold  
Oh, it must be cold
