

Curious

Arin Ray

I see me in you
You've been aware for sometime
All that they say is true
All of your fears are right
But they're not mine

I ain't got shit to hide
Look you in your eyes
I'm just trying to stay tonight
You just wanna stay for life
Red flags on my sleeve
Tatted on me, can't you see?
Think about it
You know I was like this
The day that you found me

Baby, I
I could understand why you're curious
Ain't no way of changing your mind
I hope that you're not taking this serious
But you're curious
So am I
I'm just trying to see if it's hitting, babe
You're just trying to see if they lied
I hope that you're not taking this serious
But you're curious
So am I

Yeah, you wanna go there?
Maybe you should slow down
This ain't going no where
You still wanna know now
I tell you that the grass ain't greener
Oh, well come see for yourself
For yourself

I ain't got shit to hide
Look you in your eyes
I'm just trying to stay tonight
You just wanna stay for life
Red flags on my sleeve
Tatted on me, can't you see?
Think about it
You know I was like this
The day that you found me

Baby, I
I could understand why you're curious
Ain't no way of changing your mind
I hope that you're not taking this serious
But you're curious
So am I
I'm just trying to see if it's hitting, babe
You're just trying to see if they lied
I hope that you're not taking this serious
But you're curious
So am I
