# Damn

**Arin Ray**

Yeah, baby don't stress me out
You're supposed to hold me down
Everything wild right now
Way too wild right now
Always tryna cuss me out
Why you gotta test me now?
I'm just tryna cool it down
But it don't matter, 'cause I told you to never go there
In what world would I do that?
Thought I trusted you to never go there
Girl I thought you had my back

Just fire away 'til I'm gone (Gone, gone)
Just fire away 'til I'm gone
Just fire away 'til I'm gone
Just fire away 'til I'm gone (Gone, gone)
Just fire away 'til I'm gone (Just fly away, just fly away)
Just fire away 'til I'm gone

No don't stress me out
You're supposed to hold me down
Everything wild right now
Way too wild right now
Always tryna cuss me out
Why you gotta test me now?
I'm just tryna cool it down
But it don't matter
