Don't Chase

Arin Ray

Hold up ya gotta explain
Things done changed you don't treat me the same
Lookin for someone to blame
For your ways oh, that's so insane
Is it the things that I say
Is it space oh please tell me straight
Maybe we were just a phase
Guess its safe to say we're driftin away

Please don't chase (don't chase me)
Stay away (stay away)
Please don't chase (don't chase me)
Stay far away

And this one is so hard to take
Ain't no way we could erase all the days
But, we gotta fake through the pain
Cause through the pain there's always somethin to gain
I tried to help you but it seems so useless
Now nothings workin and I'm stuck on stupid
I think somebody went and gunned down cupid
He couldn't take all the pressure

Please don't chase (don't chase me)
Stay away (stay away from me)
Please don't chase
Stay far away (far away)

All I know
All I know
