Arin Ray

Right at the edge
How does it feel?
Right 'fore we jump
That's when we kiss
Shit don't miss
Help me explain it?
We're so in love
You're giving me
A side of things
Where it's blurry to me

You don't have to think about it, no
Why do you treat me this way?
You don't have to think about it, no
You don't have to think about it, no
You don't have to think about it, no

Don't move your body unless I say so
I'll tell you what I want
The more I dream about you, girl
Shit just get worse, yeah
The more I think about it
I wanna taste it on my tongue
The more I sing about it
I wanna show you, yeah, yeah

You don't have to think about it, no
Why do you treat me this way?
Treat me this way? Yeah
You don't have to think about it, no
You don't have to think about it, no
You don't have to think about it, no

Think about it, baby
I will catch you
I won't let you fall
Yeah, yeah, yeah, yeah
