

Freak

Arin Ray

I need me a freak, seven days a week
Feel it in my bones, I like to play for keeps
I need me a freak, nasty in the sheets
Feel it in my soul, tryna get you home, babe

So many times, you done ran through my mind
Take my advice, no, don't have to think twice
I see the signs when I look in your eyes
With no disguise

'Cause nobody does what you do
And you've got a dangerous groove, babe
And you got some special in you
I got to be careful with you
You got the devil in you
It's the devil in you
Is it too good to be true, babe?
It's the devil in you
It's the devil in you, babe

I need me a freak, nastier than me
She gone lick it slow, fuck you then repeat
I see me a freak, talk about some heat
Feel so good to hold, I'ma take control, babe

So many times, you done ran through my mind
Take my advice, no, don't have to think twice
I see the signs when I look in your eyes
With no disguise

'Cause nobody does what you do
And you've got a dangerous groove, babe
And you got some special in you
I got to be careful with you
You got the devil in you
It's the devil in you
Is it too good to be true, babe?
It's the devil in you
It's the devil in you, babe
