

# Hidden Emotions

Arin Ray

At night you come from a place unknown  
I'm tryna find my way from here  
Such a beauty, we could text you know  
I'm tryna keep my face from here

Say what I feel for you, oh no  
And it's driving me wild, I gotta get from here  
Say what I feel for you, oh oh  
And it's driving me mad, I can't even steer

Away, don't think I'm gonna be by you (Don't wanna be by you nah)  
Away, don't think I'm gonna sit by you (Don't wanna sit by you)

Everyday she gets a little close  
I'm tryna find my way from here  
Every now and then she takes control  
I'm tryna keep my vision clear

Say what I feel for you, oh no (Oh no)  
It's driving me wild, I gotta get from here  
Say what I feel for you, oh oh  
It's driving me mad, I can't even steer

Away, don't think I'm gonna be by you (Don't wanna be by you nah)  
Away, don't think I'm gonna sit by you (Don't wanna sit by you)
