

## Hideout

Arin Ray

Let's hide out, I'll bring the cape  
Superman I'll put you right where you safe  
Only want the best for us, can you relate?  
Let's hide out, hop in a wraith  
Fuck you for as long as it takes  
Only want the best for us, can you relate?

Let's respect that, text back  
One time, let me bless that  
You look good, you need to flex that  
If you throw it up I'ma catch that  
Your body's calling me  
And everybody said you was looking for a g  
Everybody said you was looking for king  
Make you cum, make you numb, get it done then repeat

Let's hide out, I'll bring the cape  
Superman I'll put you right where you safe  
Only want the best for us, can you relate?  
Let's hide out, hop in a wraith  
Fuck you for as long as it takes  
Only want the best for us, can you relate?  
Let's hide out  
Let's hide out

Take care of me, I need your loving don't you see?  
Play fair with me, I don't take I don't take suffering easily  
Play fair with me, I know your someone just like me  
Play fair with me, take care of me, yeah

Let's hide out, I'll bring the cape  
Superman I'll put you right where you safe  
Let's hide out, hop in a wraith  
Fuck you for as long as it takes  
Only want the best for us, can you relate?  
Let's hide out  
Let's hide out
