

Get lost in the moment
See the silhouette of a romance
I'm usually good under pressure
But she was something that I couldn't measure
I'm high at the moment
And she got a lock on my gonads
So I'ma take time to pleasure
Have a little taste of the nectar

What you feel, what you feel inside?
Be the one that's gone change my life
Just wanna feel again if that's alright
Girl I... just wanted someone to hold at night

Let's stop for a moment
Take a picture cause we live at the moment
Take a picture cause we thrive for the moment
So aware of time, we arrive in the foreign
So high that we zonin'
Took a couple shots, now I'm on it
So I'ma take time to pleasure
You look in my eyes when I melt ya, oohhh

What you feel, what you feel inside?
Be the one that's gone change my life
Just wanna feel again if that's alright
Girl I... just wanted someone to hold at night

Tell me something good
Please tell me something, yeah
