Arin Ray

We were best friends, we were best friends
When you changed up, that was the end

Tell my son my life, I can't get back, no
How did I, did I attract you?
Cause you ain't nice and words ain't 'ffect you
Don't have time so

Go and say I broke your heart
Girl, you know you lyin'
Swear you never wanted to do your part no
Lady let's be honest, honest

We were best friends, we were best friends
When you changed up, that was the end
We were best friends, we were best friends
Then you changed up, that was the end
