

# The Get Down

Arin Ray

I'll be yours, you'll be mine  
Together we, we oh so fly  
You take yours, I'll take mine  
Let's have a drink to the best of nights

Cause I can't stand you dancing there  
All alone, oh oooh  
The vibe will take you anywhere you wanna go  
I know

Dance with me, feel the heat  
Got to move your body, darling, hold hands with me  
Dance with me, just feel the heat  
Got to move your body, darling, hold hands with me

I need to see you turn around, no pressure  
But it seems like you been holding out  
Not with the run around  
I just need you showing out for me

Cause I can't stand you dancing there  
All alone, oh oooh  
The vibe will take you anywhere you wanna go  
I know

Dance with me, feel the heat  
Got to move your body, darling, hold hands with me  
Dance with me, just feel the heat  
Got to move your body, darling, hold hands with me
