Uncle Elroy

Yeah I know you hear this often
But girl I'm really bossin
I'm tryna hear listen
But these diamonds on me talkin
You lookin gorgeous
The reason I'm approachin
Could be postin views of the ocean
What it cost me
Have you ever been to Turks & Caicos
We can lay low
I'll spend a lil bank roll let's hit Rodeo
Wanna see that model face go
Or a play pose
Maybe even hit Barbados
See how the day goes
So let's blow this joint
Maybe go blow a joint
As we get high we start to talk about our lowest points
Girl I know you take care of everything you need
I just wanna give u everything u want
So baby let me pay for yo nails
So what's ya Zelle?
We don't have to shop what's on sale
Gucci Chanel
Yeah I see you feelin yourself
You fine as hell
Say she get it from her mama
I met her I can tell (look just like yo mama)

Can we have this moment?
I just wanna know ya baby
Love how you put that shit on
I just want to see what you like
See I was thinking breakfast in the morning
Anything to keep the evening going baby
Anything to keep ya hands on me
I just want to be what you like

A Bad bitch is good company
Bosses need good company
I like when they bougie
But be in the hood comfortably
I like when they be talkin they shit
And do it humbly
I like when they asking me daddy
You gon cum for me
Baby that's rhetorical
My shot is historical
Shoot it like Steph 2018 at the Oracle
I just want to hang up my Jersey
Cuz you worthy
I pass the 42 like Irving when I was serving
They been coming straight at the kid
But I been curving
Truth is I could've hit it

But I've been swerving
I just wanna be what you like
Hand you the car keys you beep beep what you like
Take you to Chanel CC what you like
Hit the DD and VV with ya ice
Uh Match this Fly
Catch this Vibe
I'm on my way to the top
You tryna catch this ride? (let's go)

Can we have this moment?
I just wanna know ya baby
Love how you put that shit on
I just want to see what you like
See I was thinking breakfast in the morning
Anything to keep the evening going baby
Anything to keep ya hands on me
I just want to be what you like

So what you say?
My car never moves from the front
My engine goes vroom in the trunk
This what I do not a stunt
I never been the 2
I'm the one
I can heat the pool if you want
Smoke the smoothest of blunts
Really depending all on yo vibe
A Nigga got ideas
But let me just stay in line
You tell me all yo fears and maybe I'll tell u mine
I'm tryna give it all, if all u give us time

Can we have this moment?
I just wanna know ya baby
Love how you put that shit on
I just want to see what you like
See I was thinking breakfast in the morning
Anything to keep the evening going baby
Anything to keep ya hands on me
I just want to be what you like

(I just wanna be what you like
You like
I just see what you like
You like maybe
We can have a good time)
