

I ain't been gettin' no sleep  
This relationship's getting to me  
Try my best to keep all of the peace  
Yeah, my patience been taking some heat  
So I'm weak by the end of the week  
Try my best to explain what I been on  
When you never gon' listen to me  
You consistently try to compete  
I'll just play your games if you want me to  
I'll just play your games if you want me to  
I'll just play the field if you want me  
I'll just play your games how you want me to  
Me to, me to, yeah

I ain't been gettin' no sleep  
I ain't been gettin' no sleep  
I ain't been gettin' no sleep  
I ain't been gettin' no sleep

No sleep on the bad nights  
Fucked up, can't get right  
Miss me with the dead lies  
Some things you can't hide, and honestly I don't care  
'Cause I ain't been gettin' no sleep  
I ain't been gettin' no sleep
