

# Shadows

Arion

When I'm down and out  
When I'm on my knees  
When I've been beaten to the ground  
Stand over me  
Watch me bleed

Always left untold  
What lies underneath  
While your hands so strong, yet cold  
Held me so tight I could not breathe

You're my ray of light darker than the night  
You're the tears I cry  
You're the cross and I'm the Christ

Like the others  
I will deny everything  
Every flaw and every sin  
How I need you  
Though I always knew  
That the dream will would never last  
I can not change the past  
In my nightmares I'm with you

There is no applause  
While this curtain falls  
We're hand in hand, we're side by side  
I am your groom and you're my bride

From your cold red lips I will drink the wine  
Just to feel alive  
I must learn to say goodbye
