

Until Eternity Ends

Arion

I'm alone in endless darkness
Where our shadow fades into the grey
In my heart a fading fire
Where our memory dies, burning away

But I won't bleed forever
One day I'll be over you

When did we fall
When did everything waste away
Now we fade into the fire
I'll go on while tomorrow shines
I'll always belong to you
Until eternity ends, until I fade away

Barren ground and desolation
Where flowers die and life comes to an end
Pledges made - we vowed "forever"
But every river flows into the sea

And I will find my way home
As soon as forever is through

When did we fall
When did everything waste away
Now we fade into the fire
I'll go on while tomorrow shines
I'll always belong to you
Until eternity ends, until I fade away

When did we fall
When did everything waste away
Now we fade into the fire
I'll go on while tomorrow shines
I'll always belong to you
Until eternity ends, until I fade away
