

## Adrenaline Rush

Arise

It's the beginning of the end today  
I'm wasting my hate for you  
Now this is hell  
Feel the rush and aggression storming upon you  
When you're inside there's no way out

I hate you  
I will break you down

It's your misery and your world will end  
You are dead inside there's no regrets  
Blinded by hate and frustration  
It's a waste of time  
Your final failure will break you down
