Arizona Zervas

Ooh Ooh  
Yeah yeah yeah yeah  
Ooh Ooh  
Yeah yeah yeah yeah

Old friends switched up  
Now it seems like they never believed in me, me  
And my girl hit my phone late night  
Say she gone and she leaving me, me  
Everyday life changes  
But one thing I know  
Is I'm far from basic, yeah  
Next time they call I'm a duck em  
Cause if they ain't fucking with me then fuck em

Had some old friends switching up like a light switch  
These days it ain't hard to tell who I'm tight with  
Me, myself and I, and I might be with a white bitch  
But I ain't gonna wife it, I know that love ain't priceless  
I been on a mission since I was seventeen  
To get this green, live my dream, but they all trynna play  
I been chasing cheese, dropping songs every week  
Working, trynna get my buzz up, now they all on my wave  
Pull up to the scene and I heard they trynna scheme  
But see I don't really listen what they all trynna say  
Hit a little blow, now they all say hello  
But I wonder if they know I heard em all acting fake

Old friends switched up  
Now it seems like they never believed in me, me  
And my girl hit my phone late night  
Say she gone and she leaving me, me  
Everyday life changes  
But one thing I know  
Is I'm far from basic, yeah  
Next time they call I'm a duck em  
Cause if they ain't fucking with me then fuck em

I just hit the studio and let it off my chest  
Funny, now they all fucking with me, ay ay  
I remember when they all wouldn't listen  
Funny, now they all bumping to me, ay ay  
They keep on talking but fuck it I keep on walking  
I'm just keeping it moving until the day that I'm bossing  
Straight up killing and flossing whoever thinking they balling  
Been trynna tell these motherfuckers that this shit is my calling  
I roll through in a new whip, drooling on my new bitch  
Swear I won't switch you, won't catch me with the new clique  
All about my business, yes, my life suits  
This a shout out to the people who said that I'd never do this

Old friends switched up  
Now it seems like they never believed in me, me  
And my girl hit my phone late night  
Say she gone and she leaving me, me  
Everyday life changes  
But one thing I know
