

# Drinking Problem

Arizona Zervas

She said I got a drinking problem  
But I don't got no problem drinking, though  
I solve my problems with the bottle  
And drink until I feel my face no more

Walk up in the club, she grabbin' up on my Denim  
Pouring out a bottle, I spilled it up, I ain't tell 'em  
Said a couple of things, she probably think I'm mental  
Shorty want a ring, I call her but I don't settle

Rockstar, she know I'm a rockstar, pull up in the black boots rockin'  
gold chains  
Rockstar, she know I'm a rockstar, I know it'll kill me but I'll never  
gon' change

She said I got a drinking problem  
But I don't got no problem drinking, though  
I solve my problems with the bottle  
And drink until I feel my face no more

Demons comin' so it's hard for me to relax  
My fam worried, don't wanna see me in rehab  
My vision blurry, it's hard for me not to relapse  
So fuck it, I've been drinkin', I'm scared of death and I mean that  
Bad habits, I smoke it like I'm a drug addict  
I try to quit but seemingly I'm not good at it  
 Fucked up rockstar in a Denim jacket  
Bury me with some roses inside a leather package

She said I got a drinking problem  
But I don't got no problem drinking, though  
I solve my problems with the bottle  
And drink until I feel my face no more
