

WEST COAST BLUES

Arizona Zervas

My whole life been a tight rope
Will I make it hell if I know
I'm goin in all in (fuck it)
I'm goin in all in
And I been working through the twilight
I'm tryna make it to the high life
Up on Mulholland
Way up on Mulholland

But I been cruising the valley
Riding on the 101
It's always June out in Cali
But it's been ten days since I felt the sun

I got the West Coast blues (West Coast blues)
I got the West Coast blues (West Coast blues)
And I don't wanna go back home
But I don't wanna ball alone
I got the West Coast blues (West Coast blues)

I woke up with a dream moved straight out to California
I found a spot to sleep off of Hollywood and Magnolia
I blew a couple bands on alcohol
I did a little dance with the Adderall
I found a couple new friends
I call 'em anxious and paranoia

But I been cruising the valley
Riding on the 101
It's always June out in Cali
But it's been ten days since I felt the sun

I got the West Coast blues (West Coast blues)
I got the West Coast blues (West Coast blues)
And I don't wanna go back home
But I don't wanna ball alone
I got the West Coast blues (West Coast blues)

It's hard to stack the green with the penny's I get
They say I can't sing and it won't make sense
These Hollywood thrills never paid no rent
But if I had fun then it's money we'll spent

I got the West Coast blues (West Coast blues)
I got the West Coast blues (West Coast blues)
And I don't wanna go back home
But I don't wanna ball alone
I got the West Coast blues (West Coast blues)

Oh oh oh
Aye yeah oh
Aye yeah oh
Oh oh
Oh oh oh oh
