Find Someone

ARIZONA

Knew that it was wrong the first night I met you
When I sneaked back into bed and you said, "I love you"
Up in this house, blood runs cold
Secret codes, are all we know

We gotta tear it all down, set it on fire
Watch it burn to the ground, it kills us just a little
But a little's alright, 'cause, oh, it ain't forever
You'll find someone, find someone who loves you better
Yeah, you'll find someone, find someone who loves you better
Babe, you'll find the one, you'll find someone

Your friends have always liked me but I told you that you shoul
dn't listen
'Cause picking wings off of angels, has always been my religion
You been stickin' round far too long
And I've been runnin' round and it just feels wrong

We gotta tear it all down, set it on fire
Watch it burn to the ground, it kills us just a little
But a little's alright, 'cause, oh, it ain't forever
You'll find someone, find someone who loves you better
Yeah, you'll find someone, find someone who loves you better
Babe, you'll find the one, you'll find someone

We gotta tear it all down, set it on fire
Watch it burn to the ground, it kills us just a little
But a little's alright, 'cause, oh, it ain't forever
You'll find someone, find someone who loves you better
Woah, babe, you'll find someone
Yeah, someone who could love you better
Woah, babe, you'll find the one, you'll find someone
