

Frozen

Arjun

All these pretty ladies, ladies
Hard to stay focus
It's getting hotter and hotter
But I have to stay frozen
If it ain't broke, don't fix it
But if it ain't fixed, it's broken
Gotta control myself
Cause there's fish to the sea
But there's shark to the ocean

Out here in the jungle
But I ain't out here looking for love
Don't judge me, I'm cold blooded
And tonight, you're a professional
You're studying me, you're sizing me up
Got me on it like a predator
You got me feel it
I really need it
But even if you are the one for me
I'm not ready [x2]

Even if you are my destiny
I don't see it
I'm not ready
I'm too numb
My heart is frozen, frozen
I'm too numb
My heart is frozen, frozen

Time to tell you can treat me how you want
Tell me you've got nothing on, still won't turn me up
I'm done all of this shit, I won't be catching feelings
No more, no more

Cause you're a professional
You're studying me, you're sizing me up
Oh, what you do is un-regular
You got me feel it
I really need it
But even if you are the one for me
I'm not ready [x2]

Even if you are my destiny
I don't see it
I'm not ready
I'm too numb
My heart is frozen, frozen [x2]
