

## In Your Head

Arjun

I'm gone on the road  
You going outta your mind  
Callin' me all of the time  
Thinking that I'm wasted  
Jealousy holds  
You only picture the worst  
Putting yourself through the hurt  
That you created

Meanwhile everyday this week  
You got my attention  
You're the one I'm missing  
Only thing I'm wantin'  
Every single day this week  
You got my attention  
You're the one I'm missing  
Only thing I'm wantin'

It's all in your head...

Your drawn to the doubt  
The voice in your heart screaming out  
Pulling your feet to the ground  
Baby, it's toxic  
Under a spell  
Losing yourself in a an illusion  
Jumping to outlast confusions  
It's tragic

Meanwhile everyday this week  
You got my attention  
You're the one I'm missing  
Only thing I'm wantin'  
Every single day this week  
You got my attention  
You're the one I'm missing  
Only thing I'm wantin'

It's all in your head...

Meanwhile everyday this week  
You got my attention  
You're the one I'm missing  
Only thing I'm wantin'  
Every single day this week  
You got my attention  
You're the one I'm missing  
Only thing I'm wantin'

It's all in your head...
