

# Shoulda Met Me First

Arjun

I know he's the kinda guy that every girl would ever dream of  
But is he the right one for you?  
I know he's the kinda guy that takes the boxes out the ember  
But is that even walk you into?

And I ain't sayin' he don't try  
But I can do it better  
The things he does right  
I can do them so much better  
You think he's worth your right  
We both know you're just wastin' time, oh

'Cause baby, oh  
I may not know you for long as him  
But all I know  
Is you'll be so much better of with me then him

You shoulda met me first  
You shoulda met me first  
You shoulda met me first  
And you shoulda met me first

Even though we dance a place is I can only ever dream off  
Do you even enjoy the taste?  
Anybody flyin' over what is you were always in the  
Always end up in the wrong place

And I ain't sayin' he don't try  
But I can do it better  
The things he does right  
I can do them so much better  
You think he's worth your right  
We both know you're just wastin' time, oh

'Cause baby, oh  
I may not know you for long as him  
Him but all I know  
Is you'll be so much better of with me then him

You shoulda met me first  
You shoulda met me first  
You shoulda met me first  
You shoulda met me first

'Cause baby, oh  
I may not know you for long as him  
But all I know  
Is you'll be so much better of with me then him

'Cause baby, oh  
I may not know you for long as him  
But all I know  
Is you'll be so much better of with me then him

You shoulda met me first  
Oh, no, you shoulda met me first  
You shoulda met me first

(See the light, see the light, baby)  
(See the light, see the light)  
You shoulda met me first
