I got a mission to complete
I got this one girl that I need
You know she been drunk textin' me
Preein' me on my insta story
She's so chill, she's like dem breeze
Plays me at FIFA '18
But she won't be playin' me
She's a keeper, nobody with her

Will you feel me like I feel you?
Girl, I'm fiendin', I'm stuck like glue
You'll be stunned till your girl come through
Ooh, yeah, ooh, yeah

She's the sound of the summer
Honey, elect her
She be on school like we want select her
Never this instance, I had you on Insta
She's the queen of the summer
I got to get her
She be on school like we want select her
Never this instance, she stepped in the Tesla

She's the sound of the
She's the sound of the
She's the sound of the summer, summer

Already actin' like she's mine
So what's the point in wastin' time?
Oh, she don't care about those likes
Or your number, don't even bother
And every day, she gives me life
She said that we should make some time
Until you know it's only right

Girl, you feel me like I feel you?
Got this feelin' we're stuck like glue
Say you need it, so girl, come through
Ooh yeah, ooh yeah

She's the sound of the summer
Honey, elect her
She be on school like we want select her
Never this instance, I had you on Insta
She's the queen of the summer
I got to get her
She be on school like we want select her
Never this instance, she stepped in the Tesla

She's the sound of the
She's the sound of the
