

# Take It Back

Arjun

Yo Donell you know what's up,  
kept putting you down but you rose back up yeah  
Joe told you to ride with me  
We had street dreams but you kept st-st-stuttering  
Craig David was walking away  
Filling you in about his last seven days yeah  
Bump & Grind with my man R Kelly  
It's getting hot in here take your clothes off for Nelly yo

There was once a time when music was life  
The rhythm and the bass made me feel so right

Take it back to the times it was R&B  
Back with all my homies in the SUV  
Take it back to the times we rocked the G Shock  
With the jeans hanging low and the air force ones  
Take it back to the times you would chill with your boo  
Usher made me wanna get freaky with you  
Take it back to the times that we fell in love  
With music, we gotta bring the R&B back

We gotta bring R&B back [x2]

Yo Jagged Edge where the party at?  
Walked outta heaven now we're bringing it back  
TLC didn't want no scrubs, independent women don't be falling in love  
Say my name say my name  
Cause my girl Beyonce got me going crazy crazy  
All Backstreets, we got no diggity  
Room 112 where the players get jiggy with it

There was once a time when music was life  
The rhythm and the bass made me feel so right

Take it back to the times it was R&B  
Back with all my homies in the SUV  
Take it back to the times we rocked the G Shock  
With the jeans hanging low and the air force ones  
Take it back to the times you would chill with your boo  
Usher made me wanna get freaky with you  
Take it back to the times that we fell in love  
With music, we gotta bring the R&B back

We're take take taking it back  
We're take take taking it back yo [x4]

Bring back the music  
Take it back to the music  
Let's go back to that time  
Baby try to remind  
Let's go let's go let's go let's go and take it...

Take it back to the times it was R&B  
Back with all my homies in the SUV  
Take it back to the times we rocked the G Shock  
With the jeans hanging low and the air force ones  
Take it back to the times you would chill with your boo

Usher made me wanna get freaky with you  
Take it back to the times that we fell in love  
With music, we gotta bring the R&B back

Said we got to bring the R&B back [x2]
