Vaadi

Arjun

I did you love ignite the fire
Girl I can see inside see inside your heart
I know it's tough I know you tired
But baby we can light it we can light up

I can see it right now
All systems down
We bringing it brown
We are burning this town
We winning it now
We singing in singing in loud

Feel it in the air where I don't want
Anybody stare we'll have to go
Take it anywhere around the globe
There you about to know

Get into something tonight
I know you feeling the vibe
We can be bunny am glad

You standing it up making it trap
Bring in the fire we lightin it up

Adi vaadi mattentra
Kassama wande waatiketeh

Soon as we touch you give me power
Only we can find we can find in love
They said in love the world is us
Lets keep in moving
Cause we are shooting for the stars

So lets get it by now
All systems down
We bringing it brown
We are burning this town
We winning it now
We singing in singing in loud

Feel it in the air where I don't want
Anybody stare we'll have to go
Take it anywhere around the globe
There you about to know

Get into something tonight
I know you feeling the vibe
We can be bunny am glad

You standing it up making it trap
Bring in the fire we lightin it up
