Arjun

Yeah, uh  
Baby, I ain't playing a game  
I love the way that you say my name  
OK, you're a Vampire  
I call the shots, I'm an umpire  
You can burn with the kid cos I'm on fire  
You can shine bright, in the limelight  
Throw the clocks out the window, time flies  
You know I can treat you better  
A vampire, so baby we can live forever

Body shaped like a coke bottle  
Baby girl you're a role model  
Guess you're rocking with the most swagger  
All the guys up in here wanna get to know you  
All the ladies wanna do it like you  
Girl, come here, let me get up on you  
Yeah, everybody's talkin' bout you  
They wanna know...

Can you work that back, baby?  
Can you give that body to me?  
When you bite that lip, lady  
I've never seen a thing so sexy  
Can you bring that fire, baby?  
I can see your body burning  
Can you feel my body yearning?  
Can you do it like...

Now I ask you to wait, it's too little too late  
Cos I'm well on my way, to being your next victim  
I've got to run away, already going insane  
Da-da-da-daaa da-da-da-daaa

(Cos you're a Vampire)  
(Vampire)  
Can you be my darkest fantasy? (Cos you're a Vampire)  
(Vampire)

(Vampire) And now you're coming on strong  
Girl you're gonna get it cos you got it going on  
I've been up in here watching you grind  
And I ain't gonna lie, girl, I wanna get dirty (Vampire)  
I'll suck the blood out my veins  
Girl you must be famous (Vampire)

Your body is so tight that it's making me thirsty

Can you work that back, baby?  
Can you give that body to me?  
When you bite that lip, lady  
I've never seen a thing so sexy  
Can you bring that fire, baby?  
I can see your body burning  
Can you feel my body yearning?  
Can you do it like...

Now I ask you to wait, it's too little too late  
Cos I'm well on my way, to being your next victim  
I've got to run away, already going insane  
Da-da-da-daaa da-da-da-daaa

(Vampire) Baby understand..  
I could be your wonderman  
I can see that you've got a smile like a hundred grand  
I'm just trying to let you know that I'm the man  
We can fly like a G6  
Yeah I need this, and you need me  
So if we "Connect" like BT  
We can fly outta this world - ET  
Body move like a scorpion  
Baby girl you're the champion yeah  
Lick a bum like a Vampire  
Got your eyes on the prize and there ain't no stopping you

Now I ask you to wait, it's too little too late  
Cos I'm well on my way, to being your next victim  
I've got to run away, already going insane  
Da-da-da-daaa da-da-da-daaa
